What is Panoramis ?
LIFE&BUSINESS

The image shows a spacious, modern office interior. The ceiling is dark with circular light fixtures and track lighting. The walls are made of light-colored wood slats. Several white columns support the ceiling. The floor is a light-colored carpet. In the foreground, there is a large, light-colored modular sofa. In the background, there are more sofas and glass-walled offices.

LIFE & BUSINESS

A new concept of workspace based on a strategic symbiosis of workspaces and multipurpose lifestyle spaces that takes its inspiration from the Mediterranean spirit.

Companies can learn a lot from the sea.

The sea is capable of reaching everyone. To adapt its shape. To be in constant motion. The sea is a rich ecosystem in which each part works thanks to the one next to it.

Furthermore, the Mediterranean has been able to unite cultures and different ways of thinking, giving rise to a lifestyle admired throughout the world.

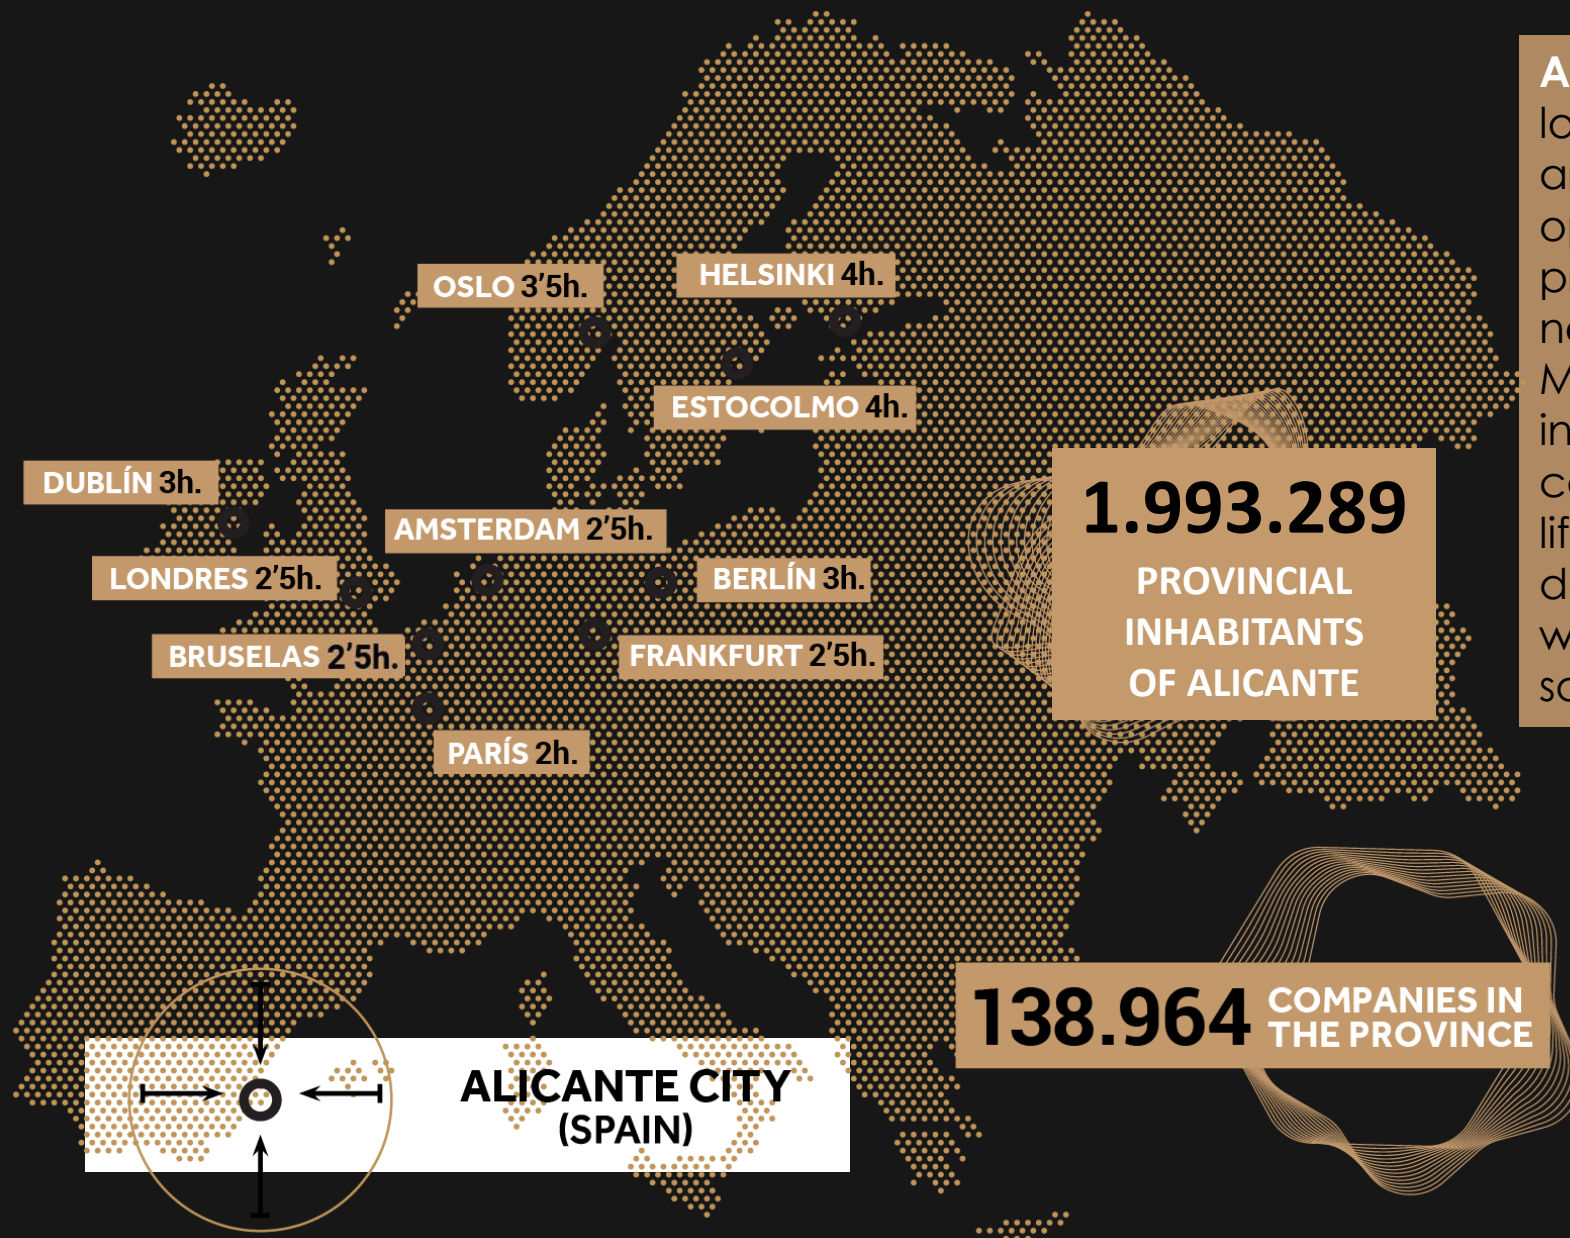

In other words: the Mediterranean Sea is an unbeatable source of inspiration for our new Workspace proposal: Mediterranean Life & Business.

The one in which work cannot be understood without the life that allows us to enjoy. And vice versa.
